Enclosed is the information you requested relating to the location of gas facilities within the area of your project. The information we have provided was obtained from a search of all our available records and are approximate in nature. Due to numerous factors, the depths of our facilities vary and should not be taken for granted. If exact depth location and information is required at points of possible interference, it will be necessary to physically check the facility in question.

**You will also have to contact our Transmission Department regarding the above-mentioned request. CPUC Regulations require notification of both So Cal Gas Distribution and Transmission of all work being conducted. Please contact Rosalyn Squires, Southern Region Transmission, at 9400 Oakdale Avenue, Chatsworth, CA 91313, phone (818) 701-4546, RSquires@semprautilities.com.
